Irrigation Potential created in Madhya Pradesh

789. SHRI RADHAJCISHAN MALA. VIYA: Will the. ' Minister of WATER RE SOURCES bo pleased to state:

(a) what is the total cultivable Qrea; in Madhya): Pradesh visa a vis other States and the irrigation potential created. by the end of Seventh Five Year Plan period; '.

(b) when will it be possible for Madhya Pradesh to fully utilise its irrigation potential created and (what are the reason$_s$ for -its slow utilisation; and

(c) whether Government are considering to provide extra plan assistance *tai*-such backward State so as to develop their untapped irrigation potential along-with the other developed States?

THE MINISTER OF WATER RESO-URCES <SHRI B. SHANKARANAND)": (a) As "per Land Use Statistics for 1983-84 the total cultivable trea in Madhya Pradesh is 22. 8 *m.* ha. against me coun-. trys cultivable area of 184. 53 m. ha. The irrigation potential created in Madhya Pradesh by the end of Sixth Plan was 3. 81 maha. and an additional potential of 1 08 m. ha. if targeted for Seventh Plan.

(b) and (c) Irrigation projects are plapned, funded and implemented by the State Governments and the Central assistanceisgiven in the form of block grants -. and loans the time by which the State Government would be in a position to utilise its full potential depends upon the priority it accords to the/development of water resources. The reasons'for slow progress include late start in irrigation development and constraint of financial resources. '

Payment of; OTA and medical reimburse-inert by the Modern food Industry
